Enhance the Caregiver Experience

- **Tamper evidence** ensures the product has never been opened
- **The lid stays open** while scooping and leveling
- The large leveler bar **controls the dosage** and gives the caregiver peace of mind with the hygienic application
- **Intuitive one-hand** opening and press-to-close area
- **Reassuring click sound** when closed gives consumers comfort that the infant's food is secured

Synonymous with Safety

- Manufactured in a **safe production environment**, called HighCare, to keep products free of contamination
- **Microbiological decontamination** with Claranor pulsed light sterilization as an option
- **Flexband** helps protect from the entrance of insects and contaminating agents
- High resealability performance provides **product safety and freshness**

Sustainability

- **Mono-material** produced in **recyclable** PP
- **Renewable feedstock resin** option

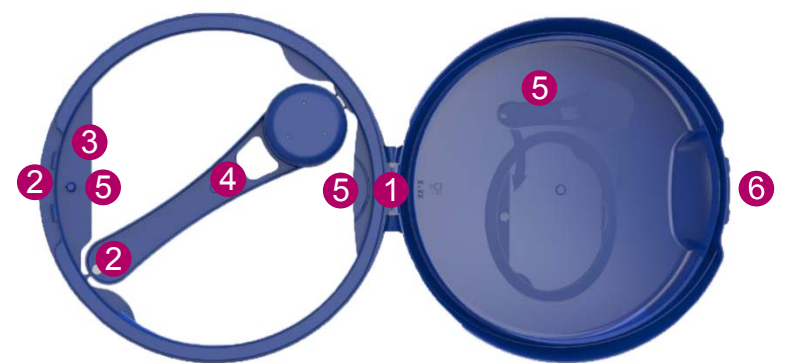

Flexband Benefits to the Filling Lines

- Accommodates **varying tin tolerances** from metal to composite
- Aids centering of closure onto can, with **lower application force**

Specifications:

- 127 mm neck finish
- 8ml to 11ml spoon size range
- Options for manufacturing finishes
 - Embossed labeling
 - In-mold labeling
- Various color options

- 1 Active hinge
- 2 Scoop-lock
- 3 Scoop leveler bar for precise dose
- 4 Flick and scoop
- 5 Scoop holder
- 6 Click-sure feature
